PROFILE

UI/UX designer focused on mobile app design, user-friendly interfaces and digital product experiences. More than three years of experience designing mobile applications in energy, healthcare and leisure. Experienced in building design systems, interactive prototypes and user research, and in working closely with developers to bring designs to life.

Available now

EXPERIENCE

UI/UX designer & junior Flutter developer

06/2025 – 01/2026

Various mobile app projects · From design to code with Flutter

Designed complete app screens – and turned my own designs into working Flutter interfaces.

- Complete app screens
- Reusable components
- Flutter UIs built from my own designs
- Design-to-code workflow

UI/UX designer

05/2024 – 12/2025

Energy utility · Inspection app for technical field service

Complex inspection and work processes, translated into an app technicians understand on the go – on phone and tablet.

- Complete UI/UX of the app
- Design system for phone & tablet
- Component library in Figma
- Interactive prototypes
- Responsive layouts for different devices

UI/UX designer

08/2023 – 07/2024

Leisure platform · Leisure and voucher app with community

Offers, vouchers and community in one app – with gamified elements and microinteractions that make exploring fun.

- Visual identity of the app
- Reusable components
- Gamified UI elements
- Microinteractions in Rive
- Wireframes, mockups & prototypes

UI/UX designer

04/2023 - 01/2024

Medtech startup · Diagnostic interface for clinicians

Patient data and exam results structured so clinicians find what they need, fast.

- Wireframes, mockups & prototypes
- Interfaces for patient data and results
- Icons and UI elements for medical use cases
- Evaluated feedback rounds
